

Statistical Report for Exam 2

Mean 94
Median 99
Std. Deviation 12.3

Grades (raw data):

108	95
108	94
108	92
107	89
103	89
102	84
101	75
100	73
100	67
99	

An important comment: make sure to make a distinction between *systemic* and *systematic*. As an example: in macroeconomics and finance, large, problematic banks present a *systemic risk*. Using the adjective *systematic* in this particular context is incorrect.
