

## Union College A Measure of Long-Term Performance

Union's U.S. News & World Report Rankings  
1999-2023

*Notes:* The adverse long-term trend is statistically highly significant. Union's ranking in 1999 was 33; in 2023 it was 48. The trend in the most recent 6-year window, 2018-2023, is significantly worse.

*Source:* Data for the construction of the above graph come from Andrew G. Reiter, "U.S. News & World Report Historical Liberal Arts College and University Rankings," available at:
